

## The Cambodian Community Dream Organization 2015 Impact Report

Welcome to The CCDO 2015 Impact Report.

The CCDO is an internationally-registered, grassroots NGO working hard to make sustainable improvements in Siem Reap, Cambodia. We are small, local and effective. Our work is focused on the Ampil Commune, a community of 10,000 people living in difficult conditions without electricity or piped water.

Our development plan involves four main projects: WASH, Education, Nutrition and Women's Workshops. 2015 has been a positive year that our supporters and staff can be proud of. We have seen steady growth in our outreach and continue to connect with the community we support. Our team has grown to 24 Khmer staff, and this year we had the pleasure of hosting 18 volunteers and 65 visitors from all over the world.

Looking ahead, we will continue our progress with keeping the CCDO sustainable and local by employing Cambodian staff and developing their professional capabilities. We will be appointing an Executive Director in 2016 whose expertise will further develop our programs and accountability. We will be renaming our Women's Workshop program "Community Workshop" because of our extended outreach to all community members.

As always, thank you to our generous advocates. We couldn't do it without you!

Warm regards,

Jenni Lipa | The CCDO President & Founder
